# Graduation Checklist

We're excited to share in this huge accomplishment with your child's success as a high school student. This checklist will help us gage, and make sure we are on the right course in helping with our student's academic success.

## Checklist:

- Please see guidance counselor for details. The requirements for each graduating class changes from year to year. Students are required to complete a minimum of 28 credits to graduate. Bible will be waived for the year(s) that transfer students were not in attendance at Orlando Christian Prep.
- Students must be enrolled in five core academic classes (English, Math, Science, History, and Bible) per year.
- Credits that count toward graduation begin in the eighth or ninth grades. Advanced courses taken at earlier grades (Algebra I or Spanish I) in middle school (grades 6-8) do count in the credits toward graduation. The student's math or foreign language requirements for graduation is not reduced. The purpose of taking advanced courses in grades 6-8 are to make available extra time for more advanced work in grades 9-12.

## Students must have...

- Taken and passed four state-accepted math courses

_____	_____
_____	_____

- Taken and passed 4 Bible courses
